1 n-th Term of a Geometric Progression

The n-th term of a geometric progression is:

$$a_n = a_1 r^{n-1}$$

2 Exponential Equation

The exponential equation is:

$$k = Ae^{-\frac{E_a}{RT}}$$

3 Inserting a Figure

Inserting a figure:

Figure 1: Tatex

4 Equation

The sum of n terms of an arithmetic progression is:

$$S_n = \frac{n}{2}(a_1 + a_n)$$

5 Mathematical Expression

The inequality is:

$$a^2 + b^2 \geq 2ab$$
